4. Vaginal Tightening/sex Enhancer #150,000

Vaginal tightening or rejuvenation is a procedure that aims to repair or young a vagina to its optimal state.

Benefits are:

- Increased sexual confidence, Reduce pain during intercourse
- Heightened orgasm, Enhanced Sex Drive, Improved Relationships
- Remove toxins during pregnancy, Restore vagina to its youthful appearance
- Repair childbirth damage, Restore femininity, Curvature
- Boost general well-being.

Femilift Laser Vaginal Tightening

Femilift Laser vaginal tightening The Femilift laser treatment is an effective regeneration procedure that improves urogenital health and helps women regain confidence. Aging and childbirth can really do some damage to a woman's vagina.

The tissue becomes dryer, unable to lubricate itself, it also becomes loose, losing some of its elasticity.

This can really affect a woman's self-esteem, especially when sexual intercourse doesn't feel the same.

Benefits of Femilift Vaginal Regeneration Procedure

- Safe and pain free procedure
 - Requires only 11 to 20 minutes
 - Does not require anesthesia or surgery
 - Is effective. Your vagina will start to tone and tighten right away!
 - Once you have gone through the initial treatments, you should only have to return about a year for maintenance.
 - Give permanent results.
 - Increase your sexual pleasure.
 - It increases blood flow to the tissue. This promotes new cell growth along with collagen production, helping to increase elasticity and decrease dryness.
 - The procedure is very accurate. Because it uses a laser, it can penetrate the vaginal wall without disturbing other areas and causing any damage.
 - No side effects.
 - Help to increase the lubrication in your vagina.
 - Sexual intercourse feels more comfortable, for both you and your partner.
- Many women arrive a little bit when they cough and sneeze. This is called urinary stress incontinence and can be annoying (and embarrassing). By going through Femilift vaginal regeneration, your vagina walls will feel tightened and you won't have to worry about this anymore! procedures get such a boost in self-confidence. No downtime after the procedure.

CHEMICAL PEEL FACIAL

Chemical peel is a powerful skin exfoliating solution applied to the face, to reveal the smooth and clear skin underneath. What makes this technique so popular is that it's useful for a variety of skin concerns.

14 LIGHT CHEMICAL PEEL

Light chemical peels are appropriate for those wanting to simply brighten and smooth their skin and for people managing recurring acne. Brightens skin, reduces acne, minimal redness or peeling lasts to no downtime.

RM, 300 (per session).

15 MEDIUM CHEMICAL PEEL

Medium chemical peel uses trichloroacetic acid (TCA) or a combination of acids known as Jessner's solution to target hyperpigmentation, acne scars and fine lines. Although significant improvements in wrinkles may be seen after only one treatment, many people opt for a series of peels to achieve the desired results or to maintain the peel's effects. Redness, acne, hyperpigmentation, fine lines! 2 weeks downtime.

RM, 500 (per session).

16 DEEP CHEMICAL PEEL

Deep chemical peels can address deep wrinkles and extensive sun damage. A deep chemical peel is a procedure requiring professional. (18) DERMABLADING/BLADING

Dermaplating is a cosmetic procedure that removes the top layer of your skin.

It is a skin treatment that uses an exfoliating blade to remove dead skin cells and hair from your face. It is also called microplating or blading.

The procedure aims to remove fine wrinkles and deep acne scarring, as well as make the skin's surface look smooth and supple.

Dermaplating can be used for any skin type and anyone with some years

- dull skin
 - dry skin
 - sun-damaged skin
 - fine wrinkles.
- #60, 500.

(19) MICRODERMABRASION FACIAL

Normally, shedding of old skin cells is a natural part of skin care and texture. It can improve the appearance of skin damage, wrinkles, fine lines, age spots, acne scarring, melasma, and other skin-related concerns and conditions.

The procedure uses a special tool, one with an abrasive surface to gently sand away the thick outer layer of the skin to rejuvenate it.

A different microdermabrasion technique uses fine particles of aluminum oxide or sodium bicarbonate with a vacuumation to accomplish the same outcome as the abrasive surface.

Microdermabrasion is considered a safe procedure for most skin types and colors.

Great for people with the following skin concerns:

- Fine Lines And Wrinkles
 - Hyperpigmentation
 - Age Spots And Brown Spots
 - Blemishes, Pores, And Blackheads
 - Acne Scars And Scars
 - Sunken In Cheekbones
 - Darkening Of The Complexion
 - Dullness And Uneven Skin Tone
 - Acne
 - Sun Damage

(20) LYMPHATIC MASSAGE FACIAL

Normally, lymphatic drainage is a natural part of other facial treatments. Facial lymphatic drainage provides you a rejuvenating experience, lymphatic drainage helps reduce puffiness and build-up around the face and neck.

It's all about massaging specific areas on the face and neck to relieve tension and soothe skin. Lymphatic massage can give you a healthier complexion by increasing circulation.

It also helps remove water retention and toxins.
